

## Imagine That! and Future Tech

Watch the love for technology spark in your child as we make learning FUN!  
Specializing in STEAM programs! This is how we are meant to learn!

# Robotics Club

This is an amazing program for Minecraft and Programming enthusiasts. The classes will be limited to 10 children. Programs are for Ages 8-9.

**Ages 8-9 Fridays 1 hour and 30 minutes**

**Minecraft: New for Spring:** In this class, students will learn the basics of game and level design using Command Blocks in Minecraft! Students will learn about Redstone and gain an understanding of Command Blocks and their infinite uses. Students will learn to teleport, set game modes, and create reward rooms! Then students will work together to create their own spleef and mob arena games in Minecraft. This is a great introduction to game design without having to learn a programming language.
