Art Outside the Box Class Details

Grades K-1:

Our ALL NEW artistic creations encourage growth, creativity, and appreciation of the arts!! Your child will be delighted with all the colorful, hands-on, imaginative projects that they create! You will be impressed with the knowledge of design, art history and technique they will learn in each class! Let us show you how we make art **fun and educational** as we design the world in our new and innovative after school classes!

Our program is thoughtfully designed with budding artists in mind. Students will be delighted with brand new exciting and educational art projects.

Most importantly, the students will come out of this after-school class with a new founded appreciation in art and themselves as artists. Just as the world is a stage, it is also a museum.. be ready to embrace the next Van Gogh or O'Keeffe to grace it with creative brilliance!

This fall our projects will include:

- Egyptian Art
- Colorful still life paintings!
- Hand-printed cards!
- Self Portraits
- Art inspired by artists!
- Aztec Art
- Clay creatures!
- Colorful landscapes!
- Dynamic drawings!
- Paper weavings inspired by folk art!
- All supplies are included.

Grades 2-4:

An exciting class for students who love to use their imagination and want to let their creativity soar through arts and crafts!

Students will design their way through a refresher on the color wheel: implementing primary, secondary, complementary, and analogous color knowledge. Next, it is on to perspective and shading. We will use this knowledge to learn to draw and paint still life and landscape works with multiple mediums.

To help guide them towards an appreciation for multidisciplinary art, students will work to show their interpretation of a song on a tile painting. We will explore art of different cultures as we create Egyptian and Aztec art. Students will also have the opportunity to weave on a small loom.

Finally students will learn about famous artists as they learn to create self portraits.
