

Techno-Science Program: Science, Technology, Robotics and Programming

Dates: 1/25-5/3

No Class Days: 2/15 & 4/5

Fee (Early/Regular)

\$247/\$267

Time:

3:45-4:45

Midtown International: Friday

Our STEM classes are an exciting combination of Hands-On Science, Technology, Robotics and Programming. View classes on-line for full details.

STEM AT ITS BEST

Grades K-2: Technically Magic

Science: Dr. Lipid is back and boy is he mad! Our arch enemy is up to no good and we must stop him! Mystery and Magic are yours as the **O.X.Y.S.** (Only Excellent Youth Scientists) match their wits against Dr. Lipid, Head of the Organization of **M.O.R.O.N.S.** (Magical Ogres Reshaping Our Natural Systems). Wait until you see the exciting science principles that your child will learn. Children will use these principles to work their way through a maze and out of the Castle of Dr. Lipid! We will use many mysteries to escape from the castles rooms:

- ◇ Vacuum that draw eggs into a bottle
- ◇ Pass strings through our necks
- ◇ Magically change a liquid's color with Acids and Bases
- ◇ Make a can come when called
- ◇ See boxes defy gravity
- ◇ Use flame tests to analyze chemicals and make magic mud
- ◇ Crush a can with atmospheric pressure

Technology: An Adventure Into Programming, Robotics & Simple Machines

Learn **coding** with Box Island and Hour of Code. Build and program **robots** with Boost and WeDo robots! As time permits for longer sessions we will also build motorized machines!
